Quick Menu

Enjoy LG’s easy solution of menu home. Now LG provides the new Quick menu (Ver 3.0), making it more easy and user-friendly than ever.

Hotel Mode (Public Display Mode)

From channel selection to volume level, you can control the TV settings in business areas. Public Display Mode also enables you to restore default settings, as required, on the TVs.

USB Data Cloning

USB data cloning makes setting up multiple displays more efficient for optimal operation. No need to set up each display one by one, data can be copied to a USB in one display and will be distributed to other displays through a USB plug-in.

External Speaker Out

Enhance the entertainment experience with an additional speaker. Guests can listen and control the TV audio from anywhere, even from restrooms.

* This feature may have a restriction depending on installation environment.

Diagnostics

The TV stores diagnostic data, which can be saved to a USB memory device, thus enabling service engineers to analyze the data and identify technical issues quickly and easily.

IR Out

Using the interactive set-top box, all LG Commercial TVs can be controlled with a single remote control.
